Informed Consent for Examination and Treatment

I (we) herby consent to the performance of examination and treatment on me or on _____, by Steven B. Eustice, D.C., a licensed doctor of chiropractic.

I have had an opportunity to discuss with the doctor or other clinic personnel the nature and purpose of the different physical therapy procedures and chiropractic treatment (manipulation/adjustment). I understand that neither chiropractic nor medical treatment is an exact science and that my care may involve judgments to attempt to anticipate or explain risks and complications and an undesirable result does not necessarily indicate an error in judgment. No guarantee for results can be made or expected but rather I wish to rely on the doctor to choose and recommend a best course of treatment based upon facts known that is in my best interest.

I further understand that there are certain degrees of risk associated with chiropractic health care and physical therapy, which includes rarely, but not limited to fractures, disc injuries, strokes, and strain/sprains and am therefore willing to accept and consent to the risk associated with the care I am about to receive.

I have read, or the above information has been explained regarding consent. I have had an opportunity to ask questions about my examination and treatment. By signing below, I agree and intend this consent form to cover the procedures prescribed for my condition and for any future conditions for which I seek treatment.
